

## **“BEHIND THE PLYWOOD”**

### **Far More Vision REMODEL Update November 7, 2025**

*Now to him, who is able to do **FAR MORE** abundantly than all that we ask or think, according to the power at work within us, to him be glory in the church and in Christ Jesus throughout all generations, forever and ever. Amen. [Eph.3:20-21]*

Phase 2 is moving along quickly and is on pace to finish before Christmas. The [10/1/25 Remodel Update](#) showed the demo was almost done. In the last 5 weeks the crew has made great progress on the bulk of the heavy construction [opened up the interior for the new hallway and office, completed electrical updates, constructed the elevator shaft, installed door frames]. Another focus of the last few weeks has been on the exterior, rebuilding the walls and adding the insulated surfaces. This week the interior finishing work has begun with ceiling grids, lights and tile, elevator electrical prep, cabinetry and more.

Hopefully the pictures below will give you a sense of all the progress!

Upper Lobby walls (above new opening for north hallway) being replaced after steel installed.

Open area just off Lobby, looking north into new hallway (on right) leading to elevator/new north entrance.

From new north entrance area, looking south  
down new hallway leading to Lobby.

Office workroom cabinets installed today

North entrance canopy, door opening and elevator shaft.

Northwest corner exterior surfaces complete.

Second floor western exterior finishes complete
