

February Remodel Update

The final pieces of phase two are wrapping up and we are making great progress in the final phase.

- North Entrance and elevator should open by February 15.
- A few highlights on 'extras' in January include:
 - Lite-Brite in the Family Lobby is GREAT – the kids (and adults) love it!
 - Second floor hallways/stairwells have been painted.
 - Room 207 has been painted and floors waxed. Room 201 has been painted and we're working on new flooring. These rooms will be used by recreation classes and a variety of student and adult small groups.
 - Stage lighting in the LOFT has been updated.
 - New signage inside and outside of the building added/updated.
 - Entire building has been re-keyed for greater security and convenience.
 - New coffee serving carts and welcome stations are such a nice improvement.
- Phase 3 classrooms and expanded space in Cerrato are taking shape. On schedule for late March opening.

Thanks for your generous support of the Far Move Vision, making ALL of this possible.
